FROM SHOTGUN TO SKILLET

by

*Mrs. Joan Cone, Representative
Women in the National Rifle Association*

Thank you for giving me the opportunity of speaking to your group. I'm also pleased at this opportunity to return to my native state of West Virginia and stay at the Greenbrier. Would you believe that when I was a little girl we'd stop by here on our way to Durham, N. C. where my brother was at Duke. In those days we couldn't afford to stay here. We'd just look, and maybe have a snack at the coffee shop. I never imagined I'd ever actually stay in this fabulous place! Thank you all very much!

Maybe some of you recall that little more than a year ago, I discussed game cooking at the International meeting in Disneyworld. Since then, I've discovered a good many things which hopefully will be of interest and help to all of you.

But first, let me say the NRA Wild Game Cooking Folder which I wrote, has proved to be the most popular P.R. piece the National Rifle Association ever produced. It made the first page of the WALL STREET JOURNAL and appeared in about 100 newspapers and magazines from coast to coast. More than 75,000 folders were sent by NRA and another 25,000 have just been printed. Over 10,000 requests have come in to NRA by individuals. The success of this folder led to a book, EASY GAME COOKING, which has received a wonderful reception in the press and on radio and television.

Since this book appeared in February '74, it's received more than 90 newspaper and magazine reviews in over half the states and several Canadian provinces. In addition I've appeared on more than 40 TV and radio programs from Boston, Mass. to Winnipeg, Manitoba; Maine to Georgia; Washington, D.C. to Lincoln, Nebraska, reaching millions of people who comprise the broad base of the American public.

At this point, maybe you're saying, "So What?" That's why I want to explain exactly how the success of this book relates to you and your fish and game departments.

Actually, it's quite simple....I've stumbled upon a way of telling your story of conservation, wildlife restoration, and wildlife management to the millions of non-hunters and non-anglers whose attitude towards our sporting interests is critical. These are the citizens we want to reach and must reach if we are to stop talking to ourselves and establish a broader base of support for hunting and fishing.

I've discovered that whether I'm cooking game on television, engaged on a TV talk show, or making a radio tape...even being interviewed by a women's page editor....all are fascinated by our story of conservation....how our license money and research have brought game birds and animals, other wildlife too, back to America in greater numbers than existed half a century ago.

The important point is that NONE of these people had any idea of our results....any knowledge of the Pittman-Robertson Act...or the slightest notion that license fees and
